THE BENEFITS OF PARTNERING WITH DOCTORS OPTICAL LABS

In recent years, many corporate lab networks have elected to centralize support functions, streamline product portfolios and reduce services to practices in an effort to increase their profits.

At Doctors Optical Labs, we see things differently, with a focus and attention on expertly servicing and supporting practices and their patients.

HERE TO SUPPORT YOU, THE INDEPENDENT EYECARE PRACTICE

Doctors Optical Labs shares a common goal with the eyecare professional: **to create exceptional patient outcomes and vision experiences.** As an optical laboratory owned and directed by independent eyecare doctors, we focus on service and quality that have been, in some cases, lost at the major corporate lab level.

The skilled team at Doctors Optical Labs is dedicated to producing **expertly crafted eyewear one job at a time.**

FOCUSING ON EXCEPTIONAL QUALITY & SERVICE

At Doctors Optical Labs our belief is that everyone should see the most in life with the highest quality optical lenses.

EYEFOCAL LENSES

Our EyeFOCAL branded lenses are all digitally surfaced, providing real-time enhancements based on the patients' needs and Rx. The EyeFOCAL portfolio offers several options, allowing you to dispense this family of lenses to virtually every patient.

EyeFOCAL ActiveAR NEOCHROMES®

LENS ENHANCEMENTS

Our Lens Enhancements provide premium solutions in anti-reflective coatings, photochromic lenses and sun & mirror options. Our ActiveAR line of anti-reflective coatings fulfills most patient needs in AR coating technology, including blue filter coatings.

OFFERING A COMPREHENSIVE PORTFOLIO OF LENSES TO FIT EVERY PATIENT'S NEEDS
